### TO WHOM IT MAY CONCERN

Almansori Construction and Oil Services Co (ACCO) supplied S3 International GmbH (S3) with field catering, accommodation and logistical services in the Al Jaghub area of Libya over the period February to September 2007.

These services were provided in the support of munitions clearance operations. The services provided by ACCO met contractual requirements to the satisfaction of S3 throughout the contracting period. In addition to the contracted accommodation and catering services, ACCO proved competent in the provision of transport and other logistical services in remote areas, under challenging conditions.

ACCO is now registered as an approved S3 Int supplier and will be invited to tender on any future business in Libya.

Further information in this regards, can be requested from the S3 International GmbH, Tripoli.

Yours sincerely,
